goes to war he will-ingly and knowingly takes his life in his hands. Death waits for him on every hand, and he goes to meet it caimly and fearlessly. He has offered his life, and he is willing to give it. In ordinary affairs, a man's life is pledged in another way. He assumes obligations that he must live to fulfill. Carelessness of health in this case is worse than undue carelessness would be in war. It is every man's duty to preserve his health to the fullest, and to live as long as he can. The sick man can't do a man's full duty in the world. A man who is weak from loss of flesh, whose nerves are run down, whose blood is impure, who shows from his sunken cheeks and hollow eyes and lingering cough that he is on the direct road to death or consumption, can in no way perform the full duties of a man. If he lets these things go on, it is because he pre-fers disease to health—death to life. He can be cured surely and quickly by the use of Dr. Pierce's Golden Medical Discovery. Thousands and thousands of people have testified to the wonderful effects of this most marvelous medicine. Dr. Pierce's great work, "The People's Common Sense Medical Adviser," may now be obtained, paper-overed, absolutely free, by any one who will send at one-cent stamps, to pay the cost of malling aniv, to the Warld's Dispensary Medical Association, Buffalo N.Y. LURAY, Va., Jan. 20 .- Our new jail finished and offered to our people six nonths ago, stands alone and uninhabited. The builders, the Manly Manu facturing Company, of Atlanta, claim it to be a first class job and well worth the price, some \$13,000. The Board of the secretary on the 13th of February. Supervisors decline to accept it. The case has already gone through our home carts and now rests in the Court of Appeals. There is no doubt the county has been misled through its officials and whatever the outcome in the courts there will always remain a feeling of disquiet and fear among the people that the whole building may some day collapse and carry the whole thing to the ground. The great cause of un easiness is the roof—a mixture of broken bricks, sand and cement. Its weight is an immense one and the fact

neen granted a writ of error by the Court of Appeals. Should a new trial be granted the case will hardly be heard before the late summer.

R. L. Pritchard & Co., distillers at this place, who were indicted in the U. S. Court at Harrisonburg, charged with alleged illicit proceedings at their distillery by some over zsalous revenue agents, came out of the trial entirely exonerated and innocent. This firm is composed of three best countymen, and our no one who knew them believed for a moment in their guilt. The trial was a miserable failure upon the part of the reformers and not one thing was proved against them. After all this their distillery has not been restored to them, and these zealous government agents, not satisfied with signal defeat, seem to be determined to turn the affair nto one of persecution. These gentlemen have lost most heavily in money. Their business interrupted, and yet they have done nothing wrong or illegal, and the outcome when reached will show that this affair have been one of designed and intended persecution. The government should be careful how it treats the innocent-the guilty should suffer-but there is no guilt yet proved against Pritchard & Co., though the government had its agents, the informers, and all its witnesses on hand at the rail, and the result was an ignominious and complete failure. It is one thing to prosecute the guilty—nother o prosecute the innocent. These gentlemen have lost most heavily in actual money value, and yet their distillery is yet in the hands of the government, and no charges against them. It is one of those cases which shows how power-less are they whom the powers that arhave chosen to show how easy it is to to and undo when the spirit is willing. The truth is this firm has been withheld from the enjoyment and use of i s property not because there is any charge now against it, but because it is hoped some offer in the way of a compromise, by the payment of a nominal sum, will be made by it in order that property may be restored. The case calls for prompt and close scrutiny and action upon the part of the revenue de-

present depression of agricultural in-terests"—allusion was made to a recent Resolutions in memoriam, of thanks, tributer article in the Farm Journal advocating the reduction of the salaries of State and county officials. It was argued that there was no good reason why they should remain the same as they were in prosperous times, as nearly every thing they have to buy is reduced in price. Taxes also are as high as ever, when they should be reduced in proportion to the prices of commodities. An article was read from a late number of the Country Gentleman, in which it was shown that the present low prices were caused by the unwise policy of the government in giving away the public lands to foreigners, railroad companies and others to such an extent that the production of agricultural sta-ples largely exceeded the demand from the natural increase of population. All the world was invited to come here and compete with the farmer, while the immigration laws in a great measure shut out those who would compete with other branches of business. Supper being announced the club adjourned to meet at the bome of

> STICKS TO THE CONFEDERATE FLAG. The Augusta (Ga) News says : "There is a lady in Augusta who has never been from under the old Confederate flag. Her name is known, but dy request, it is withheld. Whether walking, eating, or sleeping, there is always a Confederate flag over her head. While walk ing on the streets there is always a flag in her hat, and no matter how many hats or bonnets she has, there is always to be found a flag pinned on the inside of the crown. On the headpost of her bed is securely fastened a large flag of the Confederate States. The flag is as necessary for her as three meals a day. She says she has never surrendered, and never will."
